About This Game

Cosmic Sugar is a simple but elegant GPU driven simulation space. Vive wands become attractors or repulsors which allow you to craft nebulae. The controls are very simple, but it takes some time to explore all of the possibilities. Thanks to East Forest for the trailer music.

Title: Cosmic Sugar VR
Genre: Free to Play, Simulation
Developer:
David Lobser
Publisher:
Object Normal
Release Date: 30 Nov, 2016

b4d347fde0

English

cosmic sugar vr pro. cosmic sugar vr oculus. cosmic sugar vr

This game gave me a\$\$ cancer..... not in a bad way (the game is amazing) but from the severe anal prolapse i suffered from uncontrollable laughter and joy this game gave me.

Expect nothing and you will be overjoyed at the madness and utter stupidity provided.

Less Pixels than your toaster, worse jokes than your dad, less tasteful than your mum in a bikini.

Worth every penny 10V10

(Just like your mum). I'm a big fan of "bad physics" games, and of danmaku games, and this one's an amazing mashup of the two. Truly brain-breaking good fun.. This was a real nostalgia trip for me, and I was happy to see this game again on steam.

The graphics were great for its time, and the soundtrack still does a good job at setting the mood. I don't remember fully voiced games being very common in the mid-90s either.

By todays standards, the game doesn't take long to complete, and though the setting is interesting, it's not as fleshed out as I remember it. It's a 20 year old game, and though it shows, I feel that it is a unique game that has aged reasonably well.

If you're interested in games from this period, then this game is a relaxing experience that I can recommend.. It's okay. Not as much fun as some of the other lego games.. This is clearly unfinished. You play as a really creepy, poorly rendered furry that controlls very stiff and jumps with poor accuracy. This cartoon character was dropped into a realistic world map with basic Unity blocks thrown randomly around. Reclaim your dignity and stay clear of this nighmare.. I know it is early access but the dev abondend the game at september 2015. That was the last day we read something about the game from the dev's and it is a suprise that they no allow anyone how would make something out of this game and let this great idea die. If anyone want to play a good zombiegame AS a Zombie then play "Stubbs the Zombie"! :D So have a nice day AND DON'T BUY THIS GAME!!!!. Yikes.

I'm running Windows 10 on a badass Asus computer. I've done a little findangling to get some other downloads to work on FSX and really enjoyed the Dodosim helicopters and DC-3 I've downloaded.

Once I installed this update, I loaded the game and flew a glitchy mission with a malfunctioning Mission Compass and lame, boring narration with missions I couldn't complete. Since then I can't get any flights to load and have to turn off my computer every time I try to fly.

Do you guys offer refunds? I'm bummed I can't use Flight Sim any more after installing this download.

Too bad. Had potential

This game is really fun!

But a word for the devs, I like the small map where we can see every part of the city, but i don't like the big map. It's okay, but you cannot see much of what you employ.. Beautiful drawing. Spent longer time than what I expected. A challenging hidden object game with beautiful illustrations.. Fun game to play while high. Very novel and very amusing. A casual game with surprising depth.. Just as amazing and funny as the first game.. This game is really great, the concept is creative and the controls in-game feel smooth.

One of the bad things is that this game's player base... BARELY REACHES UP TO 26 PEOPLE!

The average amount of players you are ever going to see is somewhere around 20 to 30 people.

It's also really fun and the leveling system is good while the "Victory and Defeat" count is really fresh, not like most of the new games :

Example -

Wins - 20

Loses - 600 (Noob).

If it wasn't for the dead community I would recommend it even more!

Best way to play it is get some friends and invite them over to increase the player amount.

Now since the game is free, you have no excuse not to try it out.. First impressions of PKO prompted me to get a Refund. PKR had a demo which left a sour taste in my brain. the lack of EVERYTHING in the way of quality testing leaves you with a game feeling thrown together and cheap. This is supposed to be a full production game of a much beloved IP. On this level I crashed soon after on a load point. autosave, crash, load crash. so essentially there was no way past it. I should have known when the Demo was an exact duplicate of the first level in all its horridness. Here is a Screen of the level mentioned above complete with its missing waterfall texture. <http://img.photobucket.com/albums/v209/metclan/Shot0018.jpg>

3/10. I'm.....AMAZED.

I bought it knowing I'd have a joyful time, but it infinitely exceeded my expectations. Ok, it is heavily inspired by GnG, but we are being inspired all the time in life by something that serves us as a starting point that allows us to create new things. It brings a fresh GnGhostsish experinece FREE from certain not so good stabilished standards from the original series. High dificulty with balance and natural playability brings a fair experience, so you won't feel cheated. Despite it's linear, there are exploration incentives as you should find certain items to be able to beat the game and see the best (real?) ending. As an arcade fan and arcade pcb collector, I say (with property) if it had came out around 1990 - 1993, today it would be honored as a masterpiece from that era, the golden age of gaming. Keep in mind: There are no drawbacks when comparing Cursed Castilla with GnG. In fact, when there's no draw between them in some aspect, Cursed Castilla excells and wins the game... Soundtrack based on the Yamaha YMxxxx FM sound generators fill the mood!!!!!!!!!! A fun enough game. Worth the \$1 you'll get a couple hours out of it. Imagine it like a handful of rooms from Celeste that you can clear multiple times with different conditions. The hard move can be a bit brutal, but if you want a challenge then this is a great way to get some without a huge investment.. Pros

+ Simple and Fun

+ Lots of levels to explore

+ Looks great, love the design

+ Has multiplayer

+ Game keeps your attention for hours

Cons

- Can get a little repetitive

- Wish there were a few more spider models
