Microsoft Toolkit 2.4.1 Mediafire This is an app download for you who are interested in taking notes with Microsoft tools like OneNote, Outlook, PowerPoint and Office 2007-2013. It will allow you to take notes on the go with your phone or tablet. It also has a unique feature that allows you to share your notes using many different methods including emailing, messaging, printing and even sharing the notes online through OneNote sync services like SkyDrive. Microsoft Toolkit 2. 4.1 lets you take notes on the go with the features below: - Built in OneNote, Outlook & PowerPoint capture - Share notes via email or messaging apps like Whatsapp, WeChat, Line, Facebook messenger iOS. - Insert images into you notes with PowerPoint to make your class notes stand out. - Send presentations by email or message them to different devices for viewing easily. You can also use templates to save time and effort on creating slide presentations for your students. Save them as PowerPoint (.pptx) files and use them over any other presentation app available in the Microsoft Store. - Capture notes with OneNote â€" OneNote is a free note app provided by Microsoft that allows you to take notes, keep journals, manage to-do lists, manage your schedule and more using the convenience of your smart phone or tablet. You have the option to access all of your notebooks on multiple devices or just one with Microsoft Toolkit. With the included OneNote capture feature in this app, you can easily take notes wherever you are â€" class, work, home â€" making it simple for you to record any important thoughts or ideas you might have. - Capture notes with Outlook â€" Microsoft Outlook is a tool that lets you stay on top of things while also letting you manage your daily activities. It's a simple, powerful email app that helps you keep your work life in order while at the same time keeping your personal life well-kept. Microsoft Toolkit includes an Outlook capture feature that allows you to take notes on an email while already in Outlook, send meeting reminders and even insert images into the note using PowerPoint. This makes it easier than ever before to plan and execute events such as professional seminars or outings with friends and family. Microsoft Toolkit 2.4. 1 Mediafire Over 65 million people use OneNote today. Create notebooks to plan your vacation, organize your work projects, or track everything you need to do at school or work with one app. OneNote can be used as a notebook for your thoughts, schoolwork, projects and more. This tool allows you to take notes on the go with the features below: - Integration with Microsoft planner â€" A Microsoft planner is a simple tool that lets you keep track of any event activities you have scheduled. You can use it to organize any kind of event whether it is a conference or party with friends and family.
